

NSU's healthcare and other professional students have an opportunity to be trauma-informed healthcare providers, with an edge over their peers from other universities. During Sexual Assault Awareness Month, join our Title IX staff in a discussion about trauma-informed care in healthcare professions. Learn about the signs and effects of trauma and best practices for giving care to patients who may have experienced sexual violence or other forms of trauma.

**Title
IX**

Trauma-Informed Health Care: Understanding and Meeting the Needs of Victimized Patients

Presented by:

Laura Bennett, Title IX Coordinator/Managing Director of Title IX Compliance & Institutional Response to Sexual Misconduct and
Dr. Bohdan (Bo) Zaryckyj, Deputy Title IX Coordinator/Senior Investigator

April 4, 2022 1:00pm-2:00pm

Open to NSU community only
