

Below you will find a selection of upcoming funding opportunities. You can find more grants to support research and programs by searching the online database **SPIN** (*this replaces the Pivot funding database*):

- \*new\* <u>7-minute instructional video on searching the SPIN funding database</u>
- <u>Create an account using your NSU email</u> (\*new accounts will be approved for access)
- Log in here once you have an account that is approved
- When on NSU's campus and internet, you can log in without an account

Want to discuss your project idea or possible funding sources, feedback on your grant documents, or other grantseeking support? **Contact the NSU Grant Writing Manager, Melanie Bauer** (mbauer1@nova.edu).

## Funding Opportunities for Cancer & Health Equity

Sponsor	Grant/Program	Description	Deadline
Cancer Research Institute	<u>CRI Clinical</u> Innovator Grant	Innovative <i>immunotherapy clinical trials</i> proposed by academic researchers are vitally important to improving patient outcomes. The CRI Clinical Innovator will support novel clinical studies that address areas of high unmet need in cancer and seek mechanistic insights into clinical response with a goal of predictive biomarker discovery.	Concept Paper due 12/1/24 (full app due 5/1/25)
American Association for Cancer Research	Career Development Award	A focused effort to encourage and support investigators from <i>diverse backgrounds</i> who are underrepresented in cancer research and from <i>low-resource settings</i> , and to foster their professional advancement.	LOI due 12/4/24 (full app due: 3/20/25)
The St. Baldrick's Foundation	<u>Career</u> <u>Development</u> <u>Award</u>	Help develop the independent research of highly qualified individuals still <i>early in their</i> <i>careers</i> . Funding priorities: New discovery research, Translational research and early phase clinical trials, Phase III clinical trials & infrastructure support of participating institutions (primarily the fall grant cycle), and Education of new pediatric oncology researchers.	LOI due 12/9/24 (full app due: 2/28/25)

NINR	Advancing Health Equity through Interventions to Prevent and Address Housing Instability (R01)	Support research that advances <i>health equity</i> through development, testing, and evaluation of interventions that prevent and address housing instability.	12/13/24
American Thoracic Society	Partner Grant	The focus of this grant is clinical research that addresses topics on improving clinical outcomes in preventing and/or treating <i>lung</i> <i>disease</i> that disproportionately affects underrepresented minority (URM) patient groups.	12/16/24
Friends for an Earlier Breast Cancer Test Foundation	Grant	Accepting applications for <i>pilot projects</i> that focus on new methods to improve the detection of early breast cancer and is especially interested in the development of new techniques in the areas of biological or immunologic methods of early detection.	Open till the end of 2024
Patient- Centered Outcomes Research Institute	see Description for links	<ul> <li>Seeking to fund patient-centered comparative clinical effectiveness research (CER) projects. Topics of interest: 1) Increase Evidence for Existing Interventions and Emerging Innovations in Health; 2) <i>Achieve Health Equity</i>; 3) Accelerate Progress Toward an Integrated Learning Health System; and 4) Advance the Science of Dissemination, Implementation and Health Communication.</li> <li><i>Two funding mechanisms:</i></li> <li><u>Broad Pragmatic Studies</u>: Applicants are strongly encouraged to propose individual or cluster randomized controlled trials; however, well-specified natural experiments and well-designed observational studies will also be considered.</li> <li><u>Phased Large Awards for Comparative Effectiveness Research:</u> Investigators must propose an individual-level or cluster-randomized controlled trial of significant scale and scope for this PFA. This funding announcement anticipates that proposed research projects will require two phases of funding.</li> </ul>	LOI due 1/14/25 (full app due: 5/6/25)
NIH	Technology Development to Reduce Health Disparities (R01)	Encourages grant applications to develop and translate <i>medical technologies aimed at reducing disparities</i> in healthcare access and health outcomes. Appropriate medical technologies should be effective, affordable,	1/21/25

		culturally acceptable, and deliverable to those who need them.			
Robert Wood Johnson Foundation	Pioneering Ideas: Exploring the Future to Build a Culture of Health	Seeks proposals primed to <i>impact health</i> <i>equity</i> moving forward. Interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work.	Application opens 2/3/25		
NIH	Long-Term Effects of Disasters on Healthcare Systems in Populations with Health Disparities (R01)	Support collaborative research focused on understanding the <i>long-term effects of</i> <i>natural and/or human-made disasters</i> on healthcare systems serving populations that experience health disparities living in the U.S. and its territories.	2/5/25 (additional deadlines: 6/5/25, 10/5/25)		
Department of Health and Human Services	Tribal Behavioral Health	The purpose of this program is to prevent and reduce suicidal behavior and substance use/misuse, reduce the impact of trauma, and promote mental health among <i>American</i> <i>Indian/Alaska Native (Al/AN) youth</i> , up to and including age 24, by building a healthy network of systems, services, and partnerships that impact youth.	3/6/25		
Centers for Medicare & Medicaid Services	<u>Minority Research</u> <u>Grant</u>	The purpose of the grant program is to support <b>researchers at minority-serving institutions</b> who are investigating or addressing health care disparities affecting people from all minority populations.	Application expected to be due 4/15/25		
Robert Wood Johnson Foundation	Evidence for Action: Innovative Research to Advance Racial Equity	This funding is geared toward studies about "upstream" causes of <b>health inequities</b> , such as the systems, structures, laws, policies, norms, and practices that determine the distribution of resources and opportunities, which in turn influence individuals' options and behaviors. Research should center on the needs and experiences of communities exhibiting the greatest health burdens and be motivated by real-world priorities.	Continuous submission
