HAVE YOU HAD COVID?

You may be eligible to participate in a study, COVID-19: Understanding The Post-Viral Phase

The Institute for Neuro-Immune Medicine is working with the Centers for Disease Control (CDC) to understand why some people continue to feel sick months after they have had COVID-19, while others feel totally better.

If you participate in this research study, you will be asked to:

- Complete online survey questions about your health. Surveys will be sent every 3 months for about 3 years.
- Provide us information about your medical history.

Some people who volunteer for this study may be invited to participate in an on-site clinic visit with lab tests & examinations.

**Interested in
participating?
Follow the link or
scan the QR code:**

https://redcap.link/longitudinalplatform_E_13

**Individuals who complete the surveys will
be compensated for their time.**

*(Must be 18 - 65 years old to participate
in this study.)*
